HERITAGE INFORMATION SERIES

DIRECTORY OF CONSERVATION SUPPLIERS AND SERVICES

PRINTED 2-4-03

SPECIALISTS

Although this directory includes a number of specialists, many conservation tasks can be undertaken by people experienced in the field, e.g. bricklayers, carpenters, concretors, demolishers, drainers, electricians, glaziers, plaster fixers, joiners, metal workers, painters, plasterers, pest controllers, roofers, tilers, woodturners etc.

You will find lists of such tradespeople in your local newspaper or telephone book. It is always a good idea to inspect examples of their work.

BOOKS

There are now a number of very helpful publications on heritage conservation in Australia. The greatest range of these is available at the Sydney Building Information Centre at 525 Elizabeth Street and at the National Trust Bookshop on Observatory Hill.

COMPREHENSIVE SUPPLIERS
