

**Clarification of Scope of Works  
For**

RFQ45.2024 – Taylor Park Demolition

**Date: Wednesday 15 January 2025**

**Weddin Shire Council**

In accordance with Council's Procurement Policy, any clarifications of scope of works are provided below and will be updated accordingly. It is the responsibility of suppliers to check any clarifications that may be updated on Council's website prior to their submission.

### Question 1

---

**Who is responsible to establish the precise locations of all underground and other services at and around the Site.**

See Addendum 001 under the heading UNDERGROUND UTILITIES:

It states in the RFQ and RFT documentation: *before starting construction work, the applicant needs to establish the precise locations of all underground and other services at and around the Site. Utilise Dial Before You Dig, service owner information, service locators, pot-holing and other non-destructive techniques.*

In addition to the applicant undertaking the above, Council will be identifying and marking out Council's recycled effluent lines and have the underground power supply lines (from Middle Street, to the rotunda then onto the toilet amenities) identified in Taylor Park.

### Question 2

---

**Who is required to supply fencing?**

The applicant may be required to supply temporary construction site fencing (2.4 X 1.8 MESH) and signage for the zone they are working in. You may find it easier to quote as a separate line item in your submission in a per panel rate.

### Question 3

---

**Please find attached snippets from your RFQ documents stating addendum A (demolition Brief).**

**Unfortunately, I cannot locate this documentation. Am I missing something?**

It seems the snippet titled 'tender notification' seems to be from a third party group.

You can find the RFQ document you are looking for on Council's website here:
